Announcement

Date: 31 May 2024

Location: Energie-Terminal „Deutsche Ostsee“ in Mukran

Source/Link: Deutsche ReGas GmbH & Co. KGaA

Deutsche ReGas markets capacity from 2024 to 2027 for the Energie-Terminal „Deutsche Ostsee“ in Mukran.

From 17 June 2024, Deutsche ReGas will market LNG regasification capacity from 2024 to 2027 for the Energie-Terminal “Deutsche Ostsee” in the industrial port of Mukran.

- Deutsche ReGas will offer:
 - 15 individual regasification slots for the 2nd half of 2024:
 - Descending auctions from 1 July 2024 onwards with a starting price of EUR 0.51/mmbtu
 - Vessels’ arrival windows for each slot to be provided before the auctions
 - 12 individual regasification slots for 2025:
 - Descending auctions from 1 July 2024 onwards with a starting price of EUR 0.51/mmbtu
 - Vessels’ arrival windows (one each month) determined by AUP 2025
 - 3 separate packs of 6 regasification slots for each of the years 2025 thru 2027:
 - Open Season from 17 June to 28 June 2024 with an initial price of EUR 0.51/mmbtu
 - Unallocated packs will be offered in descending auctions from 1 July 2024 onwards
 - Vessels’ arrival windows (ratably over each year) as determined by AUP
- None of the slots offered will have LNG delivery obligations or grid entry fees attached.
- All slots can be transferred to other registered users subject to terms & conditions.
- Expected cargo size of 166,000 m³ LNG with a 9-day flat send-out profile.

Important note for interested parties:

To participate in the capacity marketing, interested parties are requested to submit a written expression of interest by email indicating the product(s) they wish to bid for. "Capacity Marketing June 2024" must be expressly stated in the email. The expression of interest should be sent to the following email address:

openseason@deutsche-regas.de.

Confirmation of receipt will be sent by e-mail.

Background:

Deutsche ReGas has developed the Energie-Terminal "Deutsche Ostsee" in the industrial port of Mukran, consisting of two FSRUs which form an integrated LNG regasification terminal of 310,000 m³ of LNG storage and a nominal send-out of 1,250 mmscf/day. The terminal is connected to the German gas pipeline OAL via the gas entry point Baltic Energy Gate.

About Deutsche ReGas:

Deutsche ReGas is a medium-sized company in the field of European energy infrastructure. Deutsche ReGas currently operates the Energie-Terminal "Deutsche Ostsee" in Mukran, the only privately owned and financed LNG terminal in Germany. In parallel, Deutsche ReGas is developing green hydrogen production facilities in Lubmin.
